

3.10 TDI® COURSE (TOTAL DIMENSIONAL IMPACT®)

This is a cost-effective course to use during restructuring of an organisation. Not only is it an employee scan, but it also results in a variety of audits and provides training for specific needs.

- Evaluation of each participant (leadership potential, soft skills needs and abilities, intrapersonal and interpersonal skills, and attitude towards the company)
- Training audit / Needs analysis (skills development, leadership potential comes to the fore, social skills are improved, and conflict and negativity are indicated and resolved)
- Individual reports
- Motivation
- Communication audit – all communication problems are indicated
- Explanatory oral report of the course, company and every participant
- Statistical graphs and tables indicating possible problems are formulated
- Individual and oral reports form the basis of the Skills Development Plan which can be compiled in collaboration with the Consortium
- Partnership with Consortium assists the company to receive follow-up evaluations
